NOTE FROM THE CITY CLERK: THE FOLLOWING ITEM WAS PULLED FROM THE CONSENT AGENDA TO BE VOTED ON SEPARATELY.

k. RESOLUTION 1053-0726 - INTERGOVERNMENTAL AGREEMENT WITH THE CITY OF PHOENIX FOR PROCESSING RECYCLABLE MATERIALS

Harold Siguenza, Public Works Assistant Director, provided an overview of the proposed five-year Intergovernmental Agreement with the City of Phoenix for processing recyclable materials. He noted that the City of Avondale has partnered with Phoenix since FY2018, with approximately 5,800 tons of curbside recycling collected from Avondale residents processed annually through this partnership.

Mr. Siguenza reviewed the average yearly processing costs, explaining that the City of Avondale pays a per-ton tipping fee for materials delivered to the City of Phoenix. After processing, separating, and bundling the recyclable materials, the City of Phoenix sells them on the open market. The City of Avondale receives quarterly revenue based on a blended rate, which offsets a portion of the per-ton processing fees.

Mr. Siguenza also provided a brief reminder of acceptable and non-acceptable recyclable materials, encouraging residents to visit the City's website for a complete and updated list.

Vice-Mayor Nielson thanked Mr. Siguenza for the presentation and emphasized the importance of informing residents about the City's continued commitment to recycling and sustainability.

Vice Mayor Nielson moved to adopt Resolution 1053-0726 approving an Intergovernmental Agreement with the City of Phoenix for processing Avondale's recyclable materials; Councilmember Solorio seconded the motion.

Upon vote, the motion was carried unanimously 7 to 0.

5. REGULAR AGENDA

a. **RESOLUTION 1057-0726 - ADOPTION OF 2025 TRANSPORTATION MASTER PLAN UPDATE**

Kim Moon, City Engineer/Engineering Director, provided an overview of the Transportation Master Plan (TMP) update, which outlines multimodal transportation strategies through 2050. The update reflects completed projects, current and future conditions, and anticipated changes in population, residential and commercial development, and travel patterns, along with long-range projections.

Ms. Moon explained that transportation improvements addressed in the TMP include streets, transit, bicycle and pedestrian facilities, and emerging transportation technologies. She noted that TMP updates are typically conducted every five years, allowing flexibility for future amendments based on the level of change occurring within the community.

Ms. Moon reviewed examples of roadway and intersection improvements and highlighted updates to multimodal strategies. She stated that public input was collected and incorporated into the development of the TMP update.

Adoption of the updated TMP will support project prioritization, development review, right-of-way acquisition, regional coordination, and grant pursuits, and will help the City continue proactive management of growth and remain competitive for regional, state, and federal funding opportunities.

Mayor Pineda commented on the City's continued growth and the importance of long-range planning, noting the TMP provides the broad policy framework needed to

prepare for future conditions, including funding needs and anticipated transportation demands such as SR-30 and questions related to traffic congestion. The plan allows the city to incorporate many variables and projections presented into future decision-making, supporting a comprehensive and informed approach to transportation planning.

In response to Councilmember White's question, Ms. Moon responded that there are multiple methods available to fund transportation improvements included in the TMP's policy framework and long-term vision. She noted that while Avondale does not currently rely heavily on public-private partnerships (PPPs), developers do construct street improvements as part of their projects, and the City has successfully secured grant opportunities to support certain transportation improvements, with hopes for additional awards in the future. Councilmember White suggested the Avondale Boulevard and MC-85 intersection, which is shared with Union Pacific, represents a strong opportunity to pursue alternative crossing solutions through partnership or collaborative funding.

Councilmember White moved to adopt Resolution 1057-0726, adopting the City of Avondale 2025 Transportation Master Plan Update; Vice Mayor Nielson seconded the motion.

Upon vote, the motion was carried unanimously 7 to 0.

b. SOLID WASTE CODE VIOLATION FEES

Kirk Beaty, Public Works Director; presented an overview of Solid Waste Services that include curbside trash and recycling collection once per week and bulk trash collection once per month, according to designated service zones. Two Solid Waste Inspectors are employed by the City to conduct daily inspections of trash and recycling containers and bulk trash piles.

In FY2026, inspectors identified over 1,800 solid waste code violations related to bulk trash; 104 of these were repeat offenders. More than half of the violations related to early and late set out and additional violations varied among hazardous materials, construction debris, or oversized piles. Mr. Beaty reviewed the inspection process and the use of a pink "X" on the pile to indicate inspection was completed and along with a pink tag explaining the violation. Solid waste collection staff may use discretion to

perform partial collection, removing acceptable materials while leaving prohibited items only when they can be easily separated.

In relation to the curbside trash and recycling inspection process, the inspectors will identify blocked or inaccessible containers, overfilled containers, and unacceptable or hazardous materials in the containers. Equipment Operators can also report violations to inspectors and Public Works customer service. For any violations, the container gets a pink tag that notifies the resident of the issue and tells the collection staff not to service that bin.

In FY2026, inspectors documented over 3,800 trash and recycling violations, including 309 repeat offenders with approximately half involving overfilled containers. Additional violations varied among improper bin placement, overweight containers, and unacceptable items such as green waste. Staff review photos and videos from collection operations to determine the cause and help residents resolve issues.

The primary role of inspectors is education and enforcement through direct contact with the residents and providing corrective guidance. Residents are encouraged to visit the city's website [AviWise](#) for a detailed guide of acceptable trash and recycling practices.

Mr. Beaty explained prior violation and enforcement efforts where citations were issued that required staff and the resident to appear in Court, which was time intensive effort for all involved. Since doing away with the citations, the City has solely relied on education without enforcement.

Where the Solid Waste Code allows for penalty fees, staff are proposing a progressive fee structure focused on repeat offenders. Mr. Beaty reviewed the fee schedule with the first offense being education to the fifth offense resulting in a civil citation. The fees, primarily target repeat offenders, will be added to the residents' utility bill. The fees will also help support enforcement efforts and offset inspection and operational costs.

The goal is to reduce the amount of time bulk piles remain on streets, maintain safety, and ensure timely removal regardless of pile size or contents. Unpaid fines may affect water service, and violations of the solid waste code constitute a Class 1 misdemeanor, which may carry additional penalties.

Council previously approved the \$28 go-back fee introduced in FY2026 for trash or recycling containers not serviced due to violations or late set-outs. In FY2026, 269 go-back actions were performed; 201 were one-time offenders, and one resident used the service eight times.

Staff emphasized that non-compliance with solid waste code remains an ongoing issue, generating frequent complaints from residents regarding piles left out for extended

periods. The primary concern is bulk trash violations and repeat offenders. The City will continue their education-first approach, supported by a progressive fee structure designed to encourage compliance, change behavior, maintain clean streets, and control operational costs.

In response to questions from Councilmembers, Mr. Beaty explained the City does not provide disposal options for bulk items, such as tires or hazardous materials because options are extremely limited. Mr. Siguenza explained that lithium-ion batteries have become a significant challenge and within the next few weeks Avondale will have a battery drop off center including a regional educational campaign in partnership with other cities. Ms. Weatherless clarified that payment arrangements are available through customer service.

Mr. Beaty stated that staff work closely with HOAs and frequently communicate with homeowners regarding bulk trash issues left in rental situations. Staff utilize collection day video to verify late set outs and work with residents when circumstances warrant flexibility. Residents are encouraged to purchase an additional trash can to manage overflow. Mr. Siguenza explained how residents can submit an AviWise ticket to acquire matching recycle bins. Mr. Beaty explained the collection trucks are rough on the trash cans and several trucks have been replaced along with three more being replaced this fiscal year. In addition, many of the trash cans are 10-20 years old.

Mr. Beaty stated the \$100 fee for the bulk collection does not apply to trash or recycling at this time because they have the existing \$28 go-back fee. Mr. Larriva confirmed all City facilities have a sharps disposal available.

Mr. Beaty stated the pink tag is placed on the bulk pile to ensure the resident sees it and to avoid duplicative efforts. Collection staff are instructed to identify broken trash cans; however, visibility can be limited during early morning routes. Items put out for “free” should be put in the driveway to avoid fees.

c. PRESENTATION AND DISCUSSION ON RECOMMENDED FEE CHANGES FOR FISCAL YEAR 2027

Renee Weatherless, Finance and Budget Director, presented the proposed fee changes for FY 2027 because of a fee study conducted last year. Minimal fee changes are being recommended within the City Clerks Office, Engineering, Finance and Budget, Parks, Recreation, and Libraries, Police, and Public Works. As required, public notice was posted online on May 4, 2026, that included the methodology in support of the new or increased fees. On June 25, 2026, notice was posted on social media.

Ms. Weatherless reviewed the 18 recommended new fees, 38 fee name changes only, five name changes and unit of measure updates, six new and updated fee ranges, two fee reductions, two new fee ranges and unit of measure update, and two fee removals. This topic will come before Council at the July 13, 2026, meeting for action on the proposed changes and upon approval the fees will take effect on September 1, 2026.

In response to Councilmember White's question, Mr. Larriva explained many plots remain at Goodyear Farm Cemetery as capacity is created with the transition from coffin to cremation, which is selected as part of the application process.

Mayor Pineda thanked staff for researching and recommending necessary changes. He also recommended assigning fees for outside organizations utilizing Avondale fields. Mr. Larriva confirmed field allocation and rental policy prioritizes residents and local organizations

6. SUMMARY OF CURRENT EVENTS FROM MAYOR, VICE MAYOR, AND COUNCILMEMBERS

- Councilmember Conde congratulated Councilmember White on her selection as Chair of the Metro Valley Board and Councilmember Weise on her selection to serve on the MAG Transportation Committee.
- Councilmember Solorio reported her attendance at the Women in Municipal Government Summer Conference and expressed appreciation to Mr. Corbin and Ms. Harris for their preparation and timely assistance in answering questions.
- Councilmember White noted her attendance at services at Thrive Church and Skyway Church, as well as her participation in the Light the Sky Fourth of July Celebration alongside fellow Councilmembers.
